TINJAUAN IMPLEMENTASI FORMULIR EDUKASI BERDASARKAN STANDAR AKREDITASI DI RUMAH SAKIT UMUM SYIFA MEDIKA BANJARBARU TAHUN 2022

KTI. Program Studi Perkam dan Informasi Kesehatan
(xiv + 47 + 15 lampiran)

Formulir edukasi merupakan pendokumentasian edukasi yang diberikan oleh profesional pemberi asuhan (PPA) kepada pasien dan keluarga. Edukasi yang efektif akan membantu pasien untuk memahami dan berpartisipasi dalam pengambilan keputusan terkait pengobatan yang dijalannya. Formulir edukasi belum terdapat kebutuhan dan materi edukasi yang harus dijelaskan kepada pasien sesuai standar akreditasi Kementerian Kesehatan. Tujuan penelitian adalah implementasi formulir edukasi berdasarkan standar akreditasi. Metode penelitian ini menggunakan penelitian deskriptif. Subyek penelitian ini adalah 1 orang Perawat dan 1 orang Kepala Instalasi Rekam Medis. Berdasarkan hasil penelitian, aspek anatomi formulir edukasi telah terdapat kepala formulir (*heading*), pendahuluan (*introduction*), petunjuk pengisian formulir (*instruction*), tubuh/isi formulir (*body*) dan penutup formulir (*close*). Aspek isi formulir edukasi telah terdapat beberapa *item*, penggunaan istilah dan singkatan sesuai standar, serta tidak ada simbol. Formulir edukasi telah sesuai dengan Keputusan Menteri Kesehatan Republik Indonesia Nomor HK.01.07/MENKES/1128/2022 terkait pengkajian kemampuan dan kemauan belajar pasien dan didokumentasikan pada formulir edukasi. Tetapi belum terdapat beberapa materi kebutuhan edukasi pada formulir edukasi meliputi asuhan dan pelayanan yang disediakan oleh rumah sakit, akses pelayanan, alternatif asuhan dan pelayanan, hasil pengobatan, termasuk hasil pengobatan yang tidak diharapkan serta interaksi obat dan makanan. Formulir edukasi berbahan kertas HVS 70 gram, bentuk formulir persegi panjang, ukuran kertas kwarto atau A4 dan berwarna putih. Sebaiknya menggunakan desain formulir edukasi sesuai dengan standar akreditasi menurut Kementerian Kesehatan.

REVIEW OF IMPLEMENTATION OF EDUCATIONAL FORM BASED ON ACCREDITATION STANDARD AT SYIFA MEDIKA HOSPITAL BANJARBARU IN 2022

*Scientific Writing. Medical Record and Health Information
(xiv + 47 + 15 attachment)*

The education form is documentation of education provided by professional care providers to patients and families. Effective education will help patients understand and participate in decision making regarding the treatment they are undergoing. The educational form does not yet contain educational requirements and materials that must be explained to patients according to the accreditation standards of the Ministry of Health. The research purpose is the implementation of educational forms based on accreditation standards. This research method uses descriptive research. The subjects of this study were 1 head of the medical record committee and 1 head of the medical record department. Based on the results of the study, the anatomical aspects of the educational form contained headings, introductions, instructions for filling out forms, bodies and closing forms. In terms of the contents of the educational form, there are several items, the use of terms and abbreviations is according to standards, and there are no symbols. The education form is in accordance with the Decree of the Minister of Health of the Republic of Indonesia Number HK.01.07/MENKES/1128/2022 regarding the assessment of the patient's ability and willingness to learn and is documented on the education form. However, there is not yet a number of educational needs materials on educational forms covering care and services provided by hospitals, access to services, alternative care and services, treatment outcomes, including unexpected treatment outcomes and drug and food interactions. Educational form made from 70 gram HVS paper, rectangular form, quarto or A4 paper size and white. It is better to use an educational form design in accordance with accreditation standards according to the Ministry of Health.
