### **TINJAUAN PENERAPAN KESELAMATAN KESEHATAN KERJA (K3) BAGI PETUGAS REKAM MEDIS DI RUANG *FILING* RUMAH SAKIT JIWA SAMBANG LIHUM**

Karya Tulis Ilmiah Program Studi D3 Perekam dan Informasi Kesehatan 2023

(XIII + 100)

Keselamatan dan Kesehatan Kerja (K3) di rumah sakit bertujuan menciptakan tempat kerja yang sehat, selamat, aman dan nyaman baik bagi Sumber daya manusia rumah sakit, pasien, pendamping pasien, pengunjung, maupun lingkungan rumah sakit sehingga proses pelayanan berjalan baik dan lancar. Tujuan penelitian untuk mengetahui penerapan Keselamatan Kesehatan Kerja (K3) bagi petugas rekam medis di ruang *filing*. Jenis penelitian yang digunakan dalam penelitian ini adalah penelitian deskriptif kualitatif. Hasil penelitian yaitu petugas filing hanya menggunakan masker belum menggunakan sarung tangan sehingga hal tersebut mengakibatkan tangan petugas filing tersayat/tergores berkas yang baru di karenakan berkas yang lancip pada saat mengambil dan memasukkan berkas pada rak filing. Sarana yang kurang belum ada tangga dan P3K. belum ada nya SPO khusus keselamatan kesehatan kerja (K3) di ruang filing Pelaksanaan K3 di ruang filing didapatkan hasil berjalan baik dengan adanya sosialisasi penyuluhan kepada petugas tentang K3, petugas belum menggunakan sarung tangan sehingga tersayat berkas ketika mengambil berkas. Sarana yang digunakan masih belum memenuhi kebutuhan sarana ruang filing, prasarana yang ada sesuai standar sarana dan prasarana ruang filing. Belum ada nya SPO khusus K3 hanya ada SPO umum.

Kata kunci: Keselamatan Kesehatan Kerja (K3). Rekam Medis, Ruang *Filing*

### **REVIEW OF THE IMPLEMENTATION OF OCCUPATIONAL HEALTH SAFETY (K3) FOR MEDICAL RECORDS OFFICERS IN THE FILING ROOM OF SAMBANG LIHUM MENTAL HOSPITAL**

*Scientific Writing for D3 Recording and Health Information Study Program 2023 (XIII + 100)*

*The goal of occupational safety and health (K3) in hospitals is to create a healthy, safe, secure and comfortable workplace for both hospital human resources, patients, patient companions, visitors, and the hospital environment so that the service process runs well and smoothly. The research objective was to find out the application of occupational health safety (K3) for medical record officers in the filing room. The type of research used in this study was descriptive qualitative research. The results of the study were filing officers only wore masks and did not use gloves, so this resulted in filing staff's hands being cut/scratched the new file is due to the sharp file when taking and inserting the file on the filing rack. The lacking facilities do not yet have ladders and first aid. there is no SPO specifically for occupational health safety (K3) in the filing room. The facilities used still do not meet the needs of filing room facilities, the existing infrastructure is in accordance with the standard of filing room facilities and infrastructure. There is no special SPO for K3, only general SPO.*
